1. Building permit application fees for new construction include all essential systems such as sprinkler, fire alarm, HVAC, etc... Flat rate fees for HVAC permit applications apply to the installation of new HVAC systems in existing residential and other buildings provided no fire separation will be penetrated by the new system or any openings in existing fire separations are already protected.
2. Applications for building permits to conduct repair and /or restoration work caused directly by the failure of a public sanitary sewer, water or storm sewer system are exemption from the payment of any fee required pursuant to Schedule "H" of the By-law, in the event that the property owner is required to pay and is unable to recover the cost from his insurance. Exemptions from the payment of fees for applications for building permits do not apply where the repair and/or restoration work is caused by the failure of a lateral service of faulty service connection within the subject property boundary.
3. An additional fee of may be applied to inspection fees for subsequent and/or additional inspections as a result of not being ready for original scheduled inspection.
4. Permit fees are doubled (administration charge) if work is commenced prior to applying for and obtaining a permit.
5. Permit fee shall be based on the formula given below unless otherwise specified in this schedule or a fixed fee (ff) will apply.  
Permit fee = SI x A  
Where SI = Service index for class of proposed work and A = floor area in ft<sup>2</sup> of work involved.
