

FACILITY USER PROGRAM

Municipal Facility User Event Insurance

With IRC's user-friendly digitized portal, municipal venues can offer transparent, efficient, and compliant insurance solutions for their third-party renters and vendors.

BENEFITS:

- ✓ **Protects Primary Coverage** - A Facility User Program policy helps shield the municipality's primary general liability in the event of a claim.
- ✓ **Waiver of Subrogation for the Municipality** - All Facility User Program policies include a Waiver of Subrogation in favor of the municipality for defense, award, and/or settlement of a claim.
- ✓ **Certificate of Insurance (COI)** - The COI is automatically issued and delivered to the user, the venue, and the municipality upon purchase. This provides peace of mind that municipal coverage requirements are being met and eliminates the need to follow up with users for certificates.

"The greatest benefit is it saves me a lot of paperwork and time. Also, the risk of what was going on, the staff were not providing the appropriate level of insurance to renters and selling the wrong level. The IRC portal allows people to complete this process on their own and there is no risk of me selling or doing something wrong."

- Facilities Co-ordinator - Ontario Municipality
